

# I'm a STAR!

In order for Mrs. Haney and your classmates to get to know you better, you need to tell us why you're a star! Each of us are stars for our own reasons- some of us love to help others, some love to perform, some excel at school, and some love to have fun. On the star paper attached, please tell us a little more about yourself. You can paste photos, draw pictures, collage magazine clippings, write words, or do whatever helps you communicate what makes you YOU.

## You need to include...

- Colors, not just black and white
- Some hobbies or interests you have
- At least 3 illustrations or photographs
- 5 adjectives that describe you as a person
- You need to fill in the star completely!
- Your name on the line at the bottom of the star

## You may include...

- Pictures of your family, friends, and pets
- Your hopes for the future (college logo, career, etc)
- Anything that you think is important in your life

Please put thought into this assignment! I will be using these to decorate the walls in the hallway outside our classroom – make it something you're proud to see hanging on the wall. Be creative!
